## Provider Directory

**Limited Provider Networks:** Your primary care practitioner (PCP) is part of a provider network or association of health care professionals who work together to provide a full range of health care services. That means, when you choose your PCP, you are also choosing a limited provider network and in most instances, for services to be covered by your health care benefit plan. You are not allowed to receive services from any practitioner or health care professional that is not part of your PCP's network. You will not be able to select any practitioner or provider outside of your PCP's network, even if that practitioner or provider is participating in the Blue Essentials network. All of your care will be provided by or arranged for within the limited provider network to which your PCP belongs, so make sure that your PCP's network includes the specialists and hospitals that you prefer.

**Attention Female Enrollees: Choosing OB/GYN Services:** In selecting your PCP remember that his or her network affects your choice of an OB/GYN. For preventive care (well-woman exams), gynecological conditions, or maternity care, female members may see a network OB/GYN without first obtaining a referral from their PCP. If you choose to select an OB/GYN, the OB/GYN you select must belong to the same limited provider network as your PCP. This is another reason to make certain that your PCP's network includes the specialists, particularly the OB/GYN, and hospitals that you prefer. You are not required to select an OB/GYN; you may elect to receive your OB/GYN services from your PCP.
